## Head of Risk Pricing and Actuarial Advice - Resolution Life Australasia

### Skills & experience

**Life insurance expert with experience in risk pricing, actuarial advice, risk management, and projects across consulting and corporate roles. Peter can support you in communication and influence, learning and growth, direction and purpose, adaptability, and initiative and drive.**

Peter Baker is a qualified actuary who serves as Head of Risk Pricing and Actuarial Advice at Resolution Life Australasia. He leads a team with expertise in group and retail risk pricing, project-related work, and actuarial advice across Australia and New Zealand. His team works directly with the Appointed Actuary and collaborates with many areas across the business.

Peter's career includes 11 years at Deloitte Australia, where he progressed from Analyst to Director, building expertise across life insurance, wealth management, and banking. His consulting experience covered risk-based capital (including Solvency II, Economic Capital, LAGIC), IFRS17, model governance and risk management, financial projections and valuations, and mergers and acquisitions. In 2017, Peter transitioned to corporate roles, joining AMP (later acquired by Resolution Life) as Senior Actuary and progressing to Deputy Chief Actuary for Risk Management and Projects. Since 2020, he has served as Chapter Lead for Actuarial Advice and Pricing under Resolution Life's agile organisational structure.

Peter has participated in the Actuaries Institute's Mentoring Program for several years. He enjoys working with more junior members, meeting new people, and finds mentoring beneficial to improving his own people skills. His approach values the mutual development that comes from mentoring relationships.

Peter is a Fellow of the Institute of Actuaries of Australia and holds a Bachelor of Actuarial Studies from the Australian National University.
