

Sasa Hu

Head of Agriculture, CUO P&C APAC - PartnerRe (Hong Kong Based)

Skills & experience

Reinsurance executive with expertise in agricultural insurance, pricing, and underwriting across Asia Pacific, Europe and the Americas. Sasa can support you in communication and influence, critical thinking, direction and purpose, adaptability, and commercial acumen.

Sasa Hu is a qualified actuary who serves dual leadership roles at PartnerRe as Chief Underwriting Officer for Asia Pacific Property & Casualty and Global Head of Agriculture. Based in Hong Kong, she brings over 20 years of experience in insurance and reinsurance, with particular expertise in agricultural insurance and specialty lines.

Sasa joined PartnerRe in 2007 as a pricing actuary, building strong technical foundations in reinsurance pricing. In 2014, she transitioned into agricultural underwriting, a specialty area where she developed deep expertise. Her progression culminated in her appointment as Global Head of Agriculture in 2021, leading agricultural reinsurance strategy and operations worldwide. In July 2024, she expanded her responsibilities by taking on the additional role of Chief Underwriting Officer for Asia Pacific Property & Casualty, demonstrating her capability to lead across multiple lines of business.

Her career demonstrates successful navigation from technical actuarial roles into senior underwriting and business leadership positions. This progression from pricing actuary to global head and regional CUO provides her with comprehensive perspective on both the technical and commercial aspects of reinsurance, as well as the skills needed to lead teams and drive business strategy across different geographies.

Sasa is interested in bringing additional perspectives to members' career development, having benefited from being both a mentee and mentor at various stages of her career. She understands the value of mentoring relationships from both sides and brings this balanced perspective to her mentoring approach.
